WELCOME

Chemistry you can count on, from people you can trust.

Thank you for taking the time to know Lithionyx Chemicals.

Every manufacturer depends on raw materials that arrive on spec, on time and with the right paperwork. Our job is to make that dependable, so you can focus on making your product.

This profile introduces who we are and what we supply: more than 560 products across 14 categories, the industries we serve, and the way we work from your first enquiry to final delivery.

“We may not be the oldest name in chemicals, but we intend to be the one you never have to chase.”

WHO WE ARE

A single, dependable source for industrial and specialty chemistry.

Lithionyx Chemicals is a B2B chemical trading and sourcing company, founded in 2023 and headquartered in Vadodara, Gujarat, in the heart of India's chemical corridor.

We supply industrial, specialty and performance chemicals to manufacturers in paints and coatings, water treatment, plastics, construction, home and personal care, pharma, food, oil & gas and more. Our range of more than 560 products is sourced from established Indian and global producers.

Customers come to us for one reason: to have one partner who understands the chemistry, matches the right grade to the application, and delivers what was promised, with the documentation to prove it.

We serve customers across 10+ states of India and take export orders on a case-by-case basis, with export-ready packaging and paperwork. Our management systems are certified to ISO 9001, ISO 14001 and ISO 45001 by an IAF-accredited certification body.

SUPPLIED ON ORDER

OUR STORY

Built to solve the problems buyers face every day.

Lithionyx Chemicals began with a problem we saw again and again on the buying side of the chemical industry.

To keep one plant running, a purchase team often has to deal with many suppliers. Quality varies from one lot to the next. Certificates arrive late, or not at all. Urgent or unusual requirements go unanswered, and production waits.

We founded Lithionyx in 2023 to fix that: one dependable partner that understands the chemistry, checks the product before it ships, answers questions directly and keeps every commitment it makes.

We started with a focused range for paints and coatings, and grew it step by step, every new category added because a customer asked us to source it. Today we serve 16 industries, from pigments and polymers to pharma, oilfield and lithium compounds.

Our size is an advantage. Decisions are quick, the people you speak to are the people who act, and no order is too small to be handled with care, or too demanding to be taken on.

That is what **Bonded by Trust. Driven by Courage.** means to us.

OUR JOURNEY

2023

The beginning

Lithionyx Chemicals is founded in Vadodara. First supplies of pigments, driers and fillers to paint and coating manufacturers in Gujarat.

2024

Building the network

Range expands into water-treatment programmes, industrial process chemicals and solvents. A sourcing network of established Indian and global producers takes shape.

2025

Growing with customers

Added plastics additives, home and personal care, oilfield, and pharma and food ingredients, as customers asked us to source more. Supply reaches beyond Gujarat to 10+ states.

2026

A complete portfolio

The portfolio crosses 560 products in 14 categories. Export supply begins on order, and the Company Profile and lithionyx.com launch.

OUR VISION

To be India's most trusted partner for industrial and specialty chemicals, known for reliability, transparency and the courage to solve what others won't.

OUR MISSION

- 01** Supply the right chemical, in the right grade, at the right time, every time.
- 02** Back every shipment with clear documentation and full batch traceability.
- 03** Build long-term partnerships through honest pricing and open communication.
- 04** Keep expanding our portfolio to meet the changing needs of Indian industry.
- 05** Operate safely and responsibly under ISO-certified quality, environment and safety systems.

OUR CORE VALUES

Trust

We keep our word on quality, price and delivery, every order, every time.

Courage

We take on the difficult specifications and tight timelines others turn away.

Integrity

Transparent pricing, honest sourcing and complete documentation.

Customer focus

Your production schedule is our priority. We plan around it.

Responsibility

Safe, compliant operations under our ISO 14001 and ISO 45001 systems.

Growth

We learn, expand and improve together with our customers.

— OUR TAGLINE, OUR PROMISE

Bonded by Trust.

Driven by Courage.

Bonded by Trust

Trust is the bond that holds every relationship together, with customers and with the producers we source from. We earn it through verified quality, transparent pricing and commitments we keep, not just once but on every order.

Driven by Courage

Courage is what moves us forward. We take on hard-to-find materials, demanding specifications and tight deadlines, and we tell you honestly what is possible. When others say no, we look for a way.

— A MESSAGE TO OUR CUSTOMERS

In the chemical business, a supplier is only as good as their last delivery. A late truck can stop a production line; a wrong grade can spoil a batch. We never forget that what we deliver goes straight into your product and your reputation.

That is why we built Lithionyx Chemicals around a simple promise. We will tell you the truth about availability, price and timelines. We will match the right material to your specification, not just sell what is in stock. And we will stand behind every batch we supply.

We are a young company, and we are proud of it. It means we are hungry to earn your business, quick to respond, and personally accountable for every order. Give us your next requirement, and let us show you what a dependable partner feels like.

Team Lithionyx Chemicals

VADODARA, GUJARAT

WHAT WE DO

Supply · Trading · Sourcing

We connect manufacturers with the chemicals they need, managing selection, sourcing, quality documentation, packaging and delivery as one service.

Supply

Regular, scheduled supply of the raw materials your plant runs on, with stock planned around your consumption.

Trading

Spot and contract purchases in the quantity you need, from a single bag to full truck loads, at competitive, transparent prices.

Sourcing

Hard-to-find chemicals, specific makes and special grades, located and verified through our producer network.

Technical support

Help selecting the right grade for your application and matching alternatives to your specification.

Flexible packaging

Bags, drums, carboys, IBCs and bulk, packed and labelled to suit your handling and storage.

Export

Supply to overseas customers on order, with export-worthy packing and complete shipping documentation.

WHY CUSTOMERS CHOOSE LITHIONYX

One partner, 560+ products

Consolidate suppliers and simplify purchasing across 14 categories.

Documents with every batch

Manufacturer's COA and SDS shared with your delivery, not chased afterwards.

Quick, honest response

Speak to the people who decide. Clear lead times, answers without delay.

Specification first

We confirm grade, purity and make against your requirement before we quote.

ISO-certified systems

Quality, environment and safety certified to ISO 9001, 14001 & 45001.

Any order size

From trial quantities to regular bulk supply, every order gets the same care.

CERTIFICATIONS

Certified systems. Consistent, safe, responsible.

Lithionyx Chemicals operates an integrated management system certified to three international standards, covering quality, the environment, and occupational health and safety.

ISO 9001

Quality Management System

A documented, audited system that makes every order consistent, from enquiry to delivery.

- Defined processes for quoting, sourcing and dispatch
- Specification checks and batch traceability
- Continual improvement driven by customer feedback

ISO 14001

Environmental Management System

Responsible handling of chemicals, packaging and waste across our operations.

- Environmental risks identified and controlled
- Responsible packaging and waste handling
- Compliance with environmental regulations

ISO 45001

Occupational Health & Safety Management System

Safe working practices for our people and everyone who handles our materials.

- Safe handling of hazardous chemicals
- Risk assessment and incident prevention
- Trained people and defined safety procedures

IAF-accredited certification

Our certificates are issued by a certification body accredited under the International Accreditation Forum (IAF). IAF-accredited certification is recognised by buyers, auditors and regulators around the world, so you can rely on it in your own vendor approval process.

Certificate copies

Available on request for vendor registration and audits.

Grades, specifications, makes and availability are confirmed at the time of enquiry against the customer's requirement. A full category-wise product list is available on request.

74 PRODUCTS

Pigments & Colourants

Colour and function for paints, inks, plastics and construction — from organic and phthalocyanine pigments to titanium dioxide, iron oxides and metallic effects.

Decorative & industrial paints

Printing inks

Plastics & masterbatch

Cement colouring

MAKES INCLUDE Venator (Tioxide) · Sun Chemical · Meghmani · Silox India · Golchha · Tata · DCW · Vega · Alco

Organic pigments & pastes

- Pigment Red 112, Blue 15:3
- Pigment Green 7, Violet 23
- Phthalocyanine & high-performance pigments
- Carbon Black N-330
- Ready-to-use pigment pastes

White & functional

- Titanium dioxide — rutile & anatase
- Zinc oxide & zinc phosphate
- Lithopone 30% · Blanc Fixe
- Zinc sulphide (Sachtolith)
- IR-reflecting pigments (Altiris)

Iron oxide & inorganic

- Synthetic iron oxide red & yellow
- Micaceous iron oxide (MIO)
- Prussian & ultramarine blue
- Mixed metal oxide pigments
- Zinc dust for zinc-rich primers

Metallic & brighteners

- Aluminium paste — leafing & non-leafing
- Gold bronze powder
- Effect & pearl pigments
- Optical brighteners OB, OB-1, CBS-X

65 PRODUCTS

Paints, Coatings & Resins

Driers, binders, curing agents, additives and fillers for solvent-borne and water-borne coating systems.

Architectural paints

Industrial & protective coatings

Wood finishes

Putty & distemper

MAKES INCLUDE BASF (Acronal) · Ashland · Incorez (a Sika company) · Sanitized · TWIB Chem · Alpha Chem

Driers & catalysts

- Cobalt & manganese octoate 6%
- Calcium, zinc & zirconium octoate
- Combination drier blends
- MEK oxime (anti-skinning)
- TIB KAT catalysts

Resins & binders

- Acrylic & styrene-acrylic binders
- Opaque polymer — AQACell HIDE
- PU dispersions · waterborne epoxy
- Petroleum resin & gum rosin
- Cardanol · epoxy hardeners

Additives & rheology

- HEC & CMC thickeners
- PU associative thickeners
- Defoamers & wetting agents
- pH neutralisers
- Coalescent — ester alcohol C-12

Fillers & protection

- Calcium carbonate & calcite
- Talc & soapstone powder
- Glass beads (grinding media)
- In-can & dry-film preservatives

12 PRODUCTS

Construction Chemicals, Adhesives & Paper

Polymers, silicas, silanes and structural adhesives for building materials, OEM bonding and paper & board processing.

Tile adhesives & mortars

Waterproofing

Sealants

OEM assembly

Paper coating

MAKES INCLUDE BASF · Wacker Metroark · Bostik · Solenis

Construction

- Construction binders — Styrofan, Acronal
- Redispersible polymer powder (RDP)
- MHEC for dry-mix mortars
- Fumed silica — HDK

Silanes

- Organofunctional silanes — GENIOSIL
- Adhesion promoters
- Crosslinkers for sealants

Adhesives

- Industrial & structural adhesives
- OEM structural bonding — Arofen
- Pliogrip 7779 cartridges
- Pliobond 30 contact adhesive

Paper

- Paper binders — Styronal, Acronal
- Paper & board additives
- Wet-end chemicals for pulp & paper

25 PRODUCTS

Plastics & Rubber Additives

Stabilisers, antioxidants, UV additives, impact modifiers, waxes and stearates that protect polymers through processing and service life.

PVC pipes & profiles

Films & masterbatch

Rubber compounds

Engineering plastics

MAKES INCLUDE Galata Chemicals · Rianlon · Formosa · Marcus · Epigral · TWIB Chem · AWL

Heat stabilisers

- Methyl & butyl tin stabilisers
- Reverse-ester tin stabilisers
- Ca-Zn lead-free stabilisers

Antioxidants & UV

- Rianox antioxidants — 1010, 1076, 168
- Riasorb UV absorbers
- HALS — UV-770, 622, 944
- Antioxidant / UV blends

Modifiers & processing

- Acrylic & MBS impact modifiers
- PVC processing aids
- CPE 135A · CPVC resin
- PE & FT waxes
- ESBO & DOP plasticisers

Stearates & masterbatch

- Zinc, magnesium & lithium stearate
- Antistatic & slip additives
- Dispersing agents for masterbatch
- Flow improvers

05

20 PRODUCTS

Solvents & Thinners

Industrial solvents, glycols and ready thinners for coatings, inks, adhesives, pharma processing and cleaning.

Paints & coatings

Printing inks

Adhesives

Pharma processing

Gas dehydration

Aromatics & ketones

- Toluene
- Xylene
- Acetone
- Cyclohexanone
- C9 aromatic solvent

Alcohols & esters

- Isopropyl alcohol (IPA)
- Ethyl acetate
- Other grades on request

Glycols

- Mono propylene glycol (MPG)
- Mono ethylene glycol (MEG)
- Diethylene & triethylene glycol
- Dipropylene glycol

Thinners & chlorinated

- Epoxy, NC & synthetic thinners
- General-purpose thinners
- MDC · trichloroethylene*

* Supplied under controlled handling and applicable regulations.

34 PRODUCTS

Oleochemicals, Terpenes & Specialty Oils

Fatty acids, fatty alcohols, glycerine, CNSL and terpene chemistry from natural feedstocks.

Alkyd resins

Soaps & surfactants

Cosmetics

Friction materials

Fragrance

MAKES INCLUDE AWL Agri Business · VVF · Oriental

Fatty acids & glycerine

- Stearic, lauric, oleic & palmitic acid
- Coconut, soya & linseed fatty acids
- Tall oil fatty acid
- Glycerine (CP / IP) · GMS
- Soap noodles 80:20

Fatty alcohols

- Cetostearyl alcohol
- Cetyl & stearyl alcohol
- Behenyl alcohol
- Lauryl myristyl alcohol

CNSL

- Cashew nut shell liquid (CNSL)
- CNSL residol oil
- Cardanol

Terpenes & aroma

- Pine oil (terpineol)
- Dipentene oil
- Isobornyl acetate
- Camphor powder & oil
- Fragrance oils

06

07

18 PRODUCTS

Surfactants, Detergents & Home Care

Anionic, non-ionic and amphoteric surfactants with the actives that make cleaning products work.

Laundry & dishwash

Surface cleaners

Institutional cleaning

Shampoo & body wash

MAKES INCLUDE AWL Agri Business

Anionic

- SLES 70% & 28%
- SLS powder
- LABSA
- SDBS powder & liquid
- Alpha olefin sulphonate

Non-ionic & mild

- Alkyl polyglucoside (APG)
- Lauryl, coco & capryl glucoside
- Lutensol XP / XL series

Amphoteric & boosters

- Cocamidopropyl betaine (CAPB)
- Cocodiethanolamide (CDEA)
- Lauryl amine oxide
- Acid thickener

Actives

- Benzalkonium chloride
- Sodium percarbonate – coated
- Optical brightener CBS-X

28 PRODUCTS

Personal Care & Cosmetic Ingredients

Emulsifiers, emollients, conditioning agents, mild surfactants and preservatives for skin, hair and oral care.

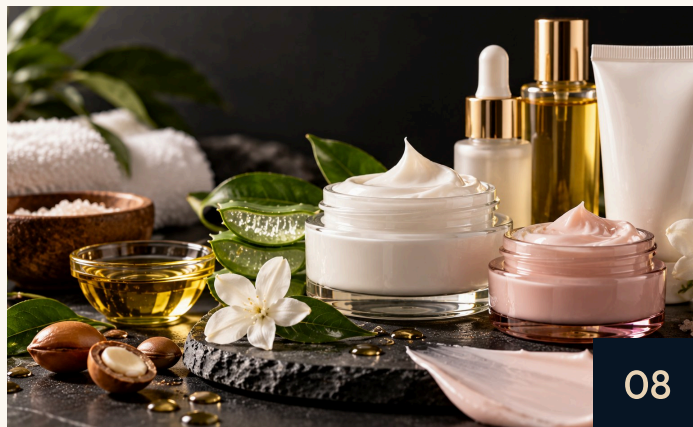

Shampoo & conditioner

Creams & lotions

Syndet bars

Oral care

MAKES INCLUDE AWL Agri Business · VVF

08

Emulsifiers & emollients

- Polysorbate 20 / 40 / 60 / 80
- Cetareth-20 / 25
- GMS-SE · emulsifying wax NI
- PEG 400 · PEG 100 stearate
- CCTG · IPM · isopropyl palmitate

Pearlisers & thickeners

- EGDS & EGMS
- Cocomonoethanolamide (CMEA)
- PEG 150 distearate
- Hydrogenated castor oil 40 EO

Conditioning & actives

- SCI & SLL isethionates
- Sodium lauryl sarcosinate
- D-Panthenol
- Polyquaternium-7 · BTAC · CTAC
- Salicylic acid

Preservatives

- Phenoxyethanol & Phenoxyethanol-EHG
- CMIT / MIT
- DMDM hydantoin
- Methyl paraben

17 PRODUCTS

Oil & Gas / Oilfield

Scavengers, brines and drilling-fluid additives for drilling, completion and production operations.

- Drilling
- Well completion
- Gas treating
- Produced water

Scavengers

- Ammonium bisulfite
- Sodium bisulfite & metabisulfite
- Sodium sulfite
- Triazine H₂S scavenger

Drilling fluids

- Bentonite — API grade
- Barite — API grade
- Xanthan gum
- Sodium lignosulphonate

Brines & completion

- Potassium chloride
- Calcium chloride
- Sodium formate
- Sodium bromide

Process & biocides

- Monoethanolamine (MEA)
- Glutaraldehyde solution
- Formic acid
- Phosphoric acid

59 PRODUCTS

Water Treatment Programme Chemicals

Ready programmes for boilers, cooling towers and RO plants, plus descalers, corrosion inhibitors, fireside treatments and formulation raw materials.

- Boilers
- Cooling towers
- RO & membranes
- Chillers & closed loops

Boiler water

- pH boosters & sludge conditioners
- Oxygen scavengers
- Multifunctional boiler treatments
- Volatile & filming amines
- Boiler defoamer

Cooling & RO

- Anti-scalants & anti-corrosion
- Oxidising & non-oxidising biocides
- Bio-dispersants
- RO anti-scalant & biocide
- RO membrane cleaners

Descaling & corrosion

- Liquid, powder & silica descalers
- Online (running boiler) descaler
- Boil-out & passivation
- Acid, copper & closed-loop inhibitors

Fireside & raw materials

- Fireside — bagasse, husk, coal, pet coke
- Fuel treatment FO / HSD
- HEDP · ATMP · DTPMP · PBTC
- TTA & BTA

11

50 PRODUCTS

Industrial Process & Water Treatment

The acids, alkalis, oxidants, coagulants and chelants that keep process plants and treatment systems running.

ETP / STP

Metal treatment

Textile processing

Sanitation

Chemical processing

MAKES INCLUDE Tata Chemicals

Acids & alkalis

- Hydrochloric, nitric & acetic acid
- Phosphoric acid 86%
- Sulphamic & oxalic acid
- Caustic soda — lye, flakes, prills
- Soda ash · bicarbonates

Oxidants & disinfectants

- Hydrogen peroxide 35 / 50 / 60%
- Sodium & calcium hypochlorite
- Stable bleaching powder
- Peracetic acid · persulphates
- Potassium permanganate

Coagulants & flocculants

- Poly aluminium chloride (PAC)
- Aluminium sulphate
- Ferric chloride
- Anionic polyelectrolyte

Salts & chelants

- Sodium metasilicate
- SHMP & STPP
- Sodium gluconate
- EDTA acid & salts
- Sodium polyacrylate

95 PRODUCTS

Inorganic Salts & Metal Compounds

Our widest range — calcium, magnesium, phosphate, fluoride, boron and metal salts for industry, agriculture and metallurgy.

Fertilisers & feed

Glass & ceramics

Electroplating

Metallurgy

Leather tanning

12

Ca, Mg & barium

- Hydrated lime · calcium oxide
- Calcium nitrate & sulphate
- Magnesium oxide, hydroxide & sulphate
- Barium carbonate, chloride & sulphate

Phosphates

- MAP · DAP
- Ammonium polyphosphate
- Mono-, di- & tricalcium phosphate
- Sodium & potassium phosphates
- TSPP

Fluorides, boron & iodine

- Ammonium bifluoride
- Sodium & potassium fluoride
- Fluoboric acid & fluoborates
- Borax & boric acid
- Potassium iodide & iodate

Metal salts & alloys

- Copper, zinc & manganese sulphate
- Nickel & cobalt salts
- Ferric & ferrous salts
- Chromium compounds*
- Ferro boron, manganese & titanium

*Restricted compounds supplied subject to applicable regulatory compliance.

32 PRODUCTS

Pharma, Food & Specialty Chemicals

Food acids, preservatives, sweeteners, antioxidants, pharma polymers and nutrition ingredients.

Food & beverage

Pharma formulations

Nutraceuticals

Animal feed

Food acids

- Citric acid — monohydrate & anhydrous
- Malic, lactic & fumaric acid
- DL- & L-tartaric acid
- Ascorbic acid

Preservatives & antioxidants

- Sodium benzoate · benzoic acid
- Potassium sorbate
- Calcium & sodium propionate
- BHA · TBHQ

Pharma materials

- PVP K30 & K90
- Benzoyl peroxide — granules & IP
- Pharma intermediates — RCMH, CMH
- Sodium & potassium citrate

Nutrition & specialty

- Folic acid · calcium gluconate
- Ferrous ascorbate & fumarate
- Ferric ammonium citrate
- Sucralose
- Denatonium benzoate

Pharma grades supplied subject to specification and regulatory confirmation.

35 PRODUCTS

Specialty Inorganics & Chemical Intermediates

Lithium and tungsten compounds, silicas, and a broad range of aromatic and chlorinated intermediates and reagents.

Glass & ceramics

Greases

Absorption chillers

Pharma & agro synthesis

Polymers

Lithium compounds

- Lithium carbonate
- Lithium hydroxide
- Lithium bromide & chloride
- Lithium acetate & tetraborate

Tungsten & silica

- Sodium tungstate
- Tungsten trioxide · tungstic acid
- Silica gel
- Silicon dioxide
- Sodium monofluorophosphate

Aromatic intermediates

- Benzyl alcohol · benzaldehyde
- Resorcinol · hydroquinone
- Pyridine
- PTBC · PTSA
- Tertiary butyl benzene

Reagents & monomers

- NBS · NCS
- Sodium borohydride
- Butyl acrylate
- Melamine powder
- Chlorinated intermediates*

* Supplied under controlled handling and applicable regulations.

INDUSTRIES WE SERVE

Chemistry for the industries that build India.

From colour and coatings to water, energy, food and health, our portfolio supports 16 industries, and the range keeps growing with our customers.

Paints & Coatings

Pigments, binders, driers, additives

Printing Inks

Pigments, resins, solvents

Plastics, Polymers & Rubber

Stabilisers, modifiers, waxes

Construction

Polymers, silanes, admixture salts

Adhesives & Sealants

Binders, silanes, tackifiers

Paper & Board

Binders, wet-end chemicals

Water & Wastewater

Programmes, coagulants, biocides

Oil & Gas

Scavengers, brines, drilling aids

Pharmaceuticals

Excipients, intermediates, solvents

Food & Nutrition

Acids, preservatives, minerals

Personal Care

Emulsifiers, actives, preservatives

Home Care & Detergents

Surfactants, builders, actives

Agriculture & Fertilisers

Phosphates, nitrates, chelates

Glass, Ceramics & Metallurgy

Borates, fluorides, ferro alloys

Leather & Textiles

Chromium salts, oxidants, auxiliaries

Lithium & Advanced Materials

Lithium & tungsten compounds

BRANDS WE SOURCE

Established producers. Trusted makes.

Alongside quality-approved Indian manufacturers, our range includes products from well-known Indian and global producers. Makes referenced in our portfolio include:

BASF

Acrylic & styrene-acrylic binders, construction & paper binders, opaque polymer

Ashland

HEC, CMC, thickeners, defoamers, pH neutralisers, PVP

Wacker Metroark

HDK fumed silica, GENIOSIL organofunctional silanes

Rianlon

Antioxidants, UV absorbers, HALS and stabiliser blends

Bostik

Industrial & structural adhesives

Sanitized

In-can & dry-film preservatives, plant hygiene

VVF

Fatty alcohols, fatty acids, emulsifying wax, isethionates

Silox India

Zinc oxide, zinc dust, zinc phosphate, zinc carbonate

Formosa

MBS impact modifiers

TWIB Chem

Zinc, magnesium & calcium stearates

Tata Chemicals

Soda ash

Venator (Tioxide)

Titanium dioxide, lithopone, zinc sulphide, Blanc Fixe, IR-reflecting pigments

Sun Chemical (DIC group)

Organic, phthalocyanine, effect & high-performance pigments

Galata Chemicals

Tin & Ca-Zn stabilisers, impact modifiers, processing aids, FT wax

Incorez (a Sika company)

PU dispersions, waterborne epoxy curing agents, aldimines

Solenis

Wet-end chemicals for pulp & paper

AWL Agri Business

Fatty acids, glycerine, GMS, surfactants & personal-care esters

Meghmani Organics

Anatase titanium dioxide, organic pigments

Epigral

CPVC resin

Marcus

Polyethylene waxes

Golchha

Synthetic iron oxide pigments

DCW · Vega · Alco · Oriental · Alpha Chem

Iron oxides, aluminium paste, pine oil, paint driers

Brand and product names are trademarks of their respective owners and are shown for product reference only. Lithionyx Chemicals is an independent trading company; listing a make does not imply an exclusive or authorised distributorship. Availability by make is confirmed at the time of enquiry.

QUALITY ASSURANCE

Right product. Right paperwork. Every batch.

**Specification first**

Grade, purity and make are matched to your requirement before we quote.

**Approved sources**

Material is sourced from established, consistent producers only.

**Samples on request**

Trial samples for your lab approval before bulk orders.

**COA & SDS**

Manufacturer's Certificate of Analysis and Safety Data Sheet with each batch.

**Correct labelling**

Product, batch and hazard labelling on every pack.

**Traceability**

Batch numbers recorded from source to your gate.

SAFETY & ENVIRONMENT

Safety and responsibility, built into the system

Our ISO 45001 and ISO 14001 management systems guide how we handle, pack and move chemicals, protecting our people, your people and the environment.

Hazard-based handling and segregation of materials

GHS labelling and Safety Data Sheet for every product

Safe handling practices and protective equipment

Responsible handling of packaging and waste

**Need a COA, SDS or sample before you order?**

Just ask. Write to hello@lithionyx.com or call +91 95109 15454.

PACKAGING & LOGISTICS

Packed right. Delivered safely.

PACKAGING

Packed for the way you work

Packaging follows the product and the manufacturer's standard, and we adapt it to your handling and storage wherever possible. Small packs are available for samples and trials.

LOGISTICS

From Vadodara to your plant

Vadodara sits at the centre of Gujarat's chemical belt, with road links to every major industrial cluster in western and central India.

Road dispatch across India through experienced transport partners

Hazardous goods moved with proper labelling and documents

Dispatch details shared on every order

Export shipments through major west-coast ports

DISPATCH FROM VADODARA

In the heart of Gujarat's chemical belt.

Close to the industrial clusters of Vadodara, Ankleshwar, Dahej and beyond, with road connections across India and to the west-coast ports for export.

— HOW WE WORK

From requirement to delivery in six clear steps.

01

Share your requirement

Product name, CAS no., grade, quantity or application.

02

Technical check

We confirm specification and match the right product.

03

Clear quotation

Price, packaging, lead time and terms. No surprises.

04

Quality release

Material checked against spec; COA & SDS shared.

05

Safe dispatch

Proper packing, labelling and transport, with updates.

06

Delivered & supported

On time, on spec, with support after delivery.

— ACROSS INDIA & BEYOND

Serving 10+ states. Exporting on order.

Our core market is Indian manufacturing, and we supply customers worldwide on order, with export-worthy packaging, COA and SDS, and complete shipping documentation on agreed terms.

Bonded by Trust. *Driven by Courage.*

Let's source your next requirement.

Share a product name, specification or application challenge. Our team will respond with the right product match and a clear quotation.
